

BootHop

Peer-to-Peer Delivery Marketplace

Business Portal, Admin and Internal Tools Reference

August 2025 | Confidential

This document provides a complete reference of all pages and routes on www.boothop.com. Each entry shows the URL, who it is for, what it does, and key functionality. Use this as an operational guide for the team.

SECTION 1 - BUSINESS PORTAL

/business	Business	Business Portal Home: Landing page for the BootHop Business Portal. Showcases B2B delivery services with video testimonials and sign-up CTA.
/business/how-it-works	Business	Business - How It Works: Step-by-step explainer of the business delivery service: post a job, match carrier, track, confirm receipt.
/business/pricing	Business	Business Pricing: Tiered pricing for business accounts - standard, express, and priority partner plans with volume discounts.
/business/get-started	Business	Business Get Started: Onboarding form for new business clients collecting company name, delivery volume, and contact details.
/business/express	Business	Express Business Delivery: Landing page for same-day and next-flight express business delivery. Targets urgent B2B logistics.
/business/contact	Business	Business Contact: Dedicated contact form for business enquiries. Routes to the business sales team inbox.
/business/sign-in	Business	Business Sign In: Login page for standard business portal accounts using email and password.
/business/priority-sign-in	Business	Priority Partner Sign In: Login page for Priority Partner business accounts. Higher tier with dedicated account management.
/business/carrier-sign-in	Business	Carrier Portal Sign In: Login for carriers registered to work with business accounts.
/business/priority-partner	Business	Priority Partner: Premium B2B tier landing page with SLA guarantees, dedicated account manager, and API access.
/business/priority-partner/payment	Business	Priority Partner Payment: Payment page for Priority Partner subscription fee. Handles recurring billing setup.
/business/carrier-network	Business	Carrier Network: Information page for independent carriers wanting to join the BootHop business carrier network.
/business/carrier-network/payment	Business	Carrier Network Payment: Payment page for carrier network registration fee.
/business/portal	Business	Business Client Portal: Main dashboard for business clients - post delivery jobs, view active shipments, download invoices.
/business/portal/priority	Business	Priority Portal: Enhanced dashboard for Priority Partner accounts with SLA monitoring and dedicated carrier assignments.
/business/carrier-portal	Business	Business Carrier Portal: Operations hub for carriers working business accounts - accept jobs, update status, confirm delivery.

SECTION 2 - ADMIN HUB

/admin/login	Admin	Admin Login: Secure admin login page with email and password. Uses separate admin session cookie. <i>Protected by ADMIN_SECRET environment variable.</i>
--------------	-------	---

/admin	Admin	Admin Home: Admin root redirects to hub or shows quick-access links to all admin sections.
/admin/hub	Admin	Admin Operations Hub: Master control panel - view all users, matches, journeys, compliance flags, payment approvals, and platform stats. <i>Primary daily-ops tool for the BootHop team.</i>
/admin/compliance	Admin	Compliance Dashboard: List of all compliance flags, REVIEW_REQUIRED items, and pending manual reviews. Approve or reject each case.
/admin/compliance/[matchId]	Admin	Compliance Case Detail: Full detail view for a single compliance case with item declaration, risk score, AI verdict, and approve/reject actions.
/admin/customs	Admin	Customs Admin: Admin view of customs declarations submitted by senders. Flag, approve, or escalate to external verification.
/admin/journeys/[id]	Admin	Journey Admin Detail: Admin view of a specific journey with carrier details, capacity, matched requests, and status controls.
/admin/verification-providers	Admin	Verification Providers: Manage third-party verification providers used for external compliance checks. Add, activate, or deactivate.
/admin/change-password	Admin	Admin Change Password: Allows admin users to change their admin portal password. Required on first login with temp password.
/admin/business	Admin	Business Admin Home: Admin overview of all business portal accounts, activity, and revenue.
/admin/business/carriers	Admin	Business Carriers Admin: Manage carriers on the business carrier network - approve applications, suspend accounts, view history.
/admin/business/ops	Admin	Business Ops Admin: Operational view of all live business deliveries with status, carrier assignment, and SLA tracking.
/admin/business/priority	Admin	Priority Partners Admin: Manage Priority Partner accounts - contracts, billing status, SLA performance, and account health.

SECTION 3 - BFI FLIGHT INTELLIGENCE

/bfi	Admin	BFI Mission Control: BootHop Flight Intelligence dashboard. Live overview of all flight-linked journeys, alerts, and carrier activity. <i>BFI = BootHop Flight Intelligence. Internal operations codename.</i>
/bfi/routes	Admin	BFI Routes: All active and historical delivery routes with volume, revenue, and performance metrics per route.
/bfi/logs	Admin	BFI Activity Logs: Full audit log of all platform events - match created, payment confirmed, compliance flagged, delivery completed.
/bfi/alerts	Admin	BFI Alerts: Real-time alert feed for compliance flags, failed payments, SLA breaches, and system errors requiring attention.
/bfi/analytics	Admin	BFI Analytics: Platform analytics showing GMV, active users, delivery success rate, route popularity, and revenue trends.
/bfi/reports	Admin	BFI Reports: Generate and download periodic reports - weekly ops summary, compliance report, revenue breakdown.

/bfi/providers	Admin	BFI Providers: Third-party service provider management - verification vendors, customs brokers, and logistics partners.
/bfi/airlines	Admin	BFI Airlines: Airline database management - update baggage allowances, restricted item policies, and route availability.

SECTION 4 - COMMANDER INTERNAL CRM

/commander	Admin	Commander Login: Entry login page for the Commander internal CRM tool. Separate from main admin auth. <i>Commander is an internal client management and pipeline tool.</i>
/commander/dashboard	Admin	Commander Dashboard: Overview of all business pipeline clients, deal stages, activity feed, and revenue forecast.
/commander/pipeline/[clientSlug]	Admin	Client Pipeline Detail: Individual client record in Commander CRM with contact info, deal stage, notes, and activity history.
/commander/music	Admin	Commander Music: Internal team music tool integrated into the Commander workspace.
/commander/change-password	Admin	Commander Change Password: Password change flow for Commander portal users.
/commander/reset	Admin	Commander Password Reset: Password reset and recovery flow for Commander accounts.
/commanderNew	Admin	Commander V2 Beta: Next version of the Commander interface being built alongside the current version.

SECTION 5 - PIPELINE AND ONBOARDING

/pipeline/onboard	Business	Business Pipeline Onboard: Onboarding form for businesses entering the BootHop sales pipeline. Captures company details and service requirements.
/client-onboarding	Business	Client Onboarding: Client-facing onboarding flow for new BootHop business clients to complete setup after contract signing.
/onboard/admin	Admin	Admin Onboard: Admin tool for manually onboarding new users or business clients when self-service is not available.
