How BootHop Works

A Plain-English Guide for Users & Business Stakeholders · June 2026

 For Senders

 For Travellers

 For Businesses

 Safe & Verified

What is BootHop?

BootHop is a platform that connects people who need to send parcels with people who are already travelling the same route. The Traveller earns money from spare luggage space. The Sender pays far less than a traditional courier. BootHop holds the money safely in the middle and only releases it once both sides confirm the delivery is done.

The Sender

Also called: Hooper

Needs a parcel delivered. Posts a request and pays when matched with a Traveller.

The Traveller

Also called: Booter

Already making a journey. Carries a parcel for earnings — no extra trip needed.

The Business

Enterprise tier

Companies needing reliable, time-critical, or cross-border delivery at scale.

The Big Picture — How a Delivery Happens

The Sender Journey — Step by Step

"I need to get something delivered"

1 Create a Free Account

Sign up at boothop.com with your email address. Takes less than 2 minutes. You receive a **£20 welcome credit** automatically applied to your first booking.

2 Post Your Delivery Request

Fill in a simple form: where the parcel is going, when it needs to arrive, what's inside, how much it's worth, and what you're willing to pay. BootHop automatically checks whether your item can be sent on that route.

⚠ Be honest about what's inside. BootHop uses AI to screen items. Prohibited goods will be blocked automatically.

3 Get Matched with a Traveller

BootHop searches for Travellers heading the same way around the same time. You'll receive an email when a match is found. You can also browse Travellers manually and express interest.

4 Agree on Price

Review the Traveller's route, date, and star rating. You can negotiate the price by sending a counter-offer. Once both sides agree, the match moves forward.

⚠ Africa routes (Nigeria, Ghana, Kenya, etc.): A BootHop team member reviews the match before you're asked to pay. This takes a few hours during business hours.

5 Pay Securely — Money is Held, Not Released Yet

You pay via a secure card page. Your money goes into a **holding account (escrow)**

— it is NOT given to the Traveller yet. Your card is authorised but only charged when delivery is confirmed.

✅ Your £20 welcome credit is deducted automatically here.

6 Receive Contact Details & Arrange Handoff

Once payment is in place, you receive the Traveller's phone number and email. Arrange a convenient time and place to hand over the parcel before their journey.

✅ Both of you also receive a unique QR barcode by email — your tracking tool throughout the delivery.

7 Track Your Delivery Live

Visit the tracking link sent by email or scan your QR barcode. You can see exactly where your parcel is. You can also "ping" the Traveller to request a location update.

8 Confirm Receipt

When your parcel arrives, click "Confirm Delivery" in your BootHop dashboard. One tap is all it takes.

9

Done — Leave a Rating

Once both you and the Traveller have confirmed, the Traveller is paid. You're invited to leave a star rating and comment. Your feedback helps future Senders choose reliable Travellers.

The Traveller Journey — Step by Step

"I'm travelling and I want to earn money from my spare luggage space"

1 Create a Free Account

Sign up at boothop.com with your email address.

2 Verify Your Identity (Required Before Earning)

Before you can carry anything, you must complete identity verification: upload a government-issued ID and add your bank account details. This is handled securely through Stripe — the same technology used by Amazon and Deliveroo.

⚠️ Verification typically takes 24–48 hours. You cannot accept matches until this is complete. This protects both you and the Sender.

3 Post Your Travel Route

Fill in a simple form: where you're travelling from and to, when you're departing, how much spare space you have, and how much you want to earn.

4 Get Matched & Accept

BootHop finds Senders who need something delivered on your route. You receive an email with the details — parcel type, weight, price offered. You can accept, decline, or counter-offer.

✅ You only carry what you're comfortable with. You are never forced to accept a match.

5 Collect the Parcel

Once the Sender has paid, you both receive each other's contact details and your QR barcodes. Arrange collection of the parcel before your journey.

6 Carry & Log Updates

As you travel, use your barcode to log checkpoints in the BootHop app: parcel collected → in transit → arrived at destination → delivered. The Sender can see these updates live.

⚠️ If you go 48 hours without logging any update, BootHop will contact you and the Sender. Always keep your status current.

7 Deliver & Confirm

Hand the parcel to the recipient and confirm delivery in your BootHop dashboard.

8 Get Paid

Once both you and the Sender confirm delivery, payment is transferred to your bank account — typically within 1–2 business days.

💰 Typical earnings: £20–£50 (domestic) · £50–£120 (UK–Europe) · £85–£320 (UK–Africa)

Barcodes & Live Tracking — How It Works

Every delivery on BootHop comes with two unique QR barcodes — one for the Sender, one for the Traveller. These are your delivery's identity card and your live tracking tool throughout the journey.

Your Two Barcodes

 **SENDER BARCODE**

Scan to visit the live tracking page. Use the "Ping Traveller" button to request a location update.

 **TRAVELLER BARCODE**

Use to log checkpoints at each stage of the journey — pickup, in transit, arrival, delivery.

Both barcodes are emailed automatically when payment is confirmed. They can also be found in the BootHop dashboard.

The Tracking Timeline — What Both Parties See

Parcel Collected
Traveller confirms pickup from Sender

In Transit
En route to departure point

Location Check
Traveller at airport / station

Arrived at Destination
Traveller has landed — arranging handoff

Delivered
Awaiting delivery confirmation

Day 1 · 09:14

Day 1 · 11:30

Day 1 · 14:05

Day 2 · 08:20

Pending

WHAT EACH STATUS MEANS

CHECKPOINT	WHAT IT MEANS
 Collected	Traveller has the parcel and the journey has started
 In Transit	Parcel is physically moving
 Location Check	Sender or Traveller shared a location update
 At Destination	Traveller has arrived — delivery imminent
 Delivered	Handed to recipient — both parties to confirm

 **48-Hour Rule:** If a Traveller logs no update for 48 hours, BootHop automatically contacts both

parties and raises an internal alert. The Sender is kept informed at every step.

Sender: How to "Ping" the Traveller

1 Scan your Sender barcode

Opens the live tracking page — no login required

2 Tap "Ping Traveller"

Sends a location request to the Traveller's device

3 Traveller shares their location

Checkpoint appears on your tracking page within minutes

Pings are rate-limited to prevent harassment — Standard: 3 pings per window · Business: 5 pings · Priority: unlimited

Payment & How the Money Works

BootHop uses a **secure holding system (called escrow)**. The Sender's money is authorised but not actually charged until both parties confirm delivery. This protects the Sender if anything goes wrong, and guarantees the Traveller will be paid if delivery is successful.

The Money Flow — Step by Step

Key point: The Sender's card is never charged if delivery is not confirmed. The Traveller can always see payment is secured before they collect the parcel.

What the Sender Pays — Price Breakdown

ITEM	WHAT IT IS	EXAMPLE
Delivery fee	Agreed between Sender and Traveller	£50.00
Platform fee	BootHop service charge (3–5%)	£2.50
Insurance	7.5% of declared goods value — covers loss or damage	£7.50 (on £100 goods)
Welcome credit	£20 discount on first booking	–£20.00
Total charged	All shown before payment	£40.00

What the Traveller Earns

ROUTE TYPE	TYPICAL EARNINGS
------------	------------------

Domestic UK (same city / short distance)	£20 – £50
UK to Europe	£50 – £120
UK to Nigeria / Ghana / Kenya	£85 – £320
UK to Dubai / Middle East	£70 – £180
UK to USA / Canada	£60 – £150

Actual earnings depend on agreed price, parcel weight, and route. BoothHop deducts a small platform commission before transferring.

Tracking Service Levels

BootHop offers three levels of tracking service depending on whether you're a regular user, a business, or need priority delivery.

	★ Standard	🏢 Business	💎 Priority
Who it's for	Everyday senders & travellers	Small & medium businesses	Time-critical shipments
Location pings	Up to 3 per window	Up to 5 per window	Unlimited
Location accuracy	City level	Street level	Building level
Live GPS	✗	✗	✓ Yes
Photo proof required	Optional	✓ Required	✓ Required
Notifications	Email + App	Email + SMS	Email + SMS + Phone Call
Support response	Standard (48h)	24 hours	2 hours
Account manager	✗	✗	✓ Dedicated
Premium tracking add-on	+£2.00 per delivery — unlocks enhanced features for that shipment		✓ Included

Priority tier is best for: AOG aircraft parts, pharmaceutical shipments, legal documents, time-sensitive commercial goods. **Businesses can apply for Priority Partner status** to access this tier permanently with a dedicated account manager.

What Can (and Cannot) Be Sent

BootHop uses intelligent screening to check all items automatically when a delivery request is posted. Here is a plain-English guide to what is and isn't permitted.

✓ Generally Permitted

Clothing and personal items

Electronics (phones, tablets, laptops)

Documents and paperwork

Gifts and household goods

Non-perishable food & groceries

Jewellery (subject to value limits)

Shoes and accessories

Personal care products

Books and educational materials

Toys and children's items

✗ Never Permitted

Weapons or ammunition of any kind

Illegal drugs or controlled substances

Explosives or flammable materials

Live animals

Counterfeit or stolen goods

Large cash amounts (varies by route)

Radioactive or hazardous materials

Child exploitation material

Human remains

Gambling devices (certain routes)

Items That Need Special Review

ITEM TYPE	WHY IT NEEDS REVIEW	WHAT HAPPENS
Medicines & pharmaceuticals	Require valid prescription on many routes	Admin team reviews before confirming
High-value items (over £5,000)	Special insurance and customs rules apply	Admin team reviews; enhanced insurance required
Transactions over £10,000	Anti-money laundering (AML) regulations	BootHop compliance team must review first
Deliveries to Africa (Nigeria, Ghana, Kenya, etc.)	Additional customs and compliance checks required	BootHop team approves within a few hours on business days
Alcohol, pork products (to UAE, Saudi etc.)	Prohibited in destination country	Automatically blocked by the system

Customs Duties: When sending internationally, the recipient may need to pay import duties or taxes at the destination country. BootHop shows an estimated customs cost when you post your request. BootHop does not collect these — they are paid directly to local customs authorities.

Safety & Trust — 8 Layers of Protection

Every single delivery on BootHop is protected by eight automatic safety layers. You don't need to do anything — these all run in the background.

1 Identity Verification

Every Traveller must verify their government ID before they can carry anything. Powered by Stripe Identity — the same system banks use.

2 Device Fingerprinting

BootHop silently identifies the device being used. Known fraud devices are blocked before any harm is done.

3 Account & IP Ban Checks

Any account or internet address previously flagged for fraud is automatically blocked from accepting new matches.

4 Fraud Risk Scoring

Every match is scored across five factors — identity, past behaviour, transaction value, route risk, and device signals. High-risk matches are blocked automatically.

5 Item Screening

Every item is checked against a prohibited goods list and route-specific rules. Banned or restricted items are caught before a match is confirmed.

6 AI Customs Check

Artificial intelligence classifies each item and checks it against international customs rules for that specific country pair.

7 Stripe Secure Payment

Payments are processed by Stripe with bank-level 3D Secure authentication. Money is held in escrow — not released until delivery is confirmed.

8 Dual Delivery Confirmation

Both the Sender AND the Traveller must confirm delivery before any money moves. Neither party can release funds alone.

If Something Goes Wrong

Raising a Dispute

If there is a problem with your delivery, either party can raise a formal dispute through their BootHop dashboard within 24 hours of delivery confirmation.

Possible Outcomes

Ghost Traveller — When a Traveller Goes Silent

- 1 48 Hours of Silence**
No tracking updates logged by the Traveller for 48+ hours
- 2 Automatic Alert**
BootHop system flags the delivery and alerts the operations team immediately
- 3 Both Parties Contacted**
Sender receives reassurance email. Traveller receives urgent message to update status.
- 4 Escalation If No Response**
If Traveller still does not respond, the BootHop team investigates and can initiate a refund for the Sender

 **Remember:** The Sender's money is safe in escrow throughout this process. It cannot be released to anyone until the situation is resolved.

BootHop for Businesses

BootHop's Business tier is built for companies that need reliable, on-demand, or cross-border delivery — from spare parts and documents to pharmaceutical shipments and retail stock.

Time-Critical

AOG aircraft parts, legal documents, urgent samples

Cross-Border

UK–EU, UK–Africa, UK–Middle East commercial shipments

Regular Volume

Recurring deliveries with a dedicated account manager

Business Journey

- 1

Create a Business Account

Separate business portal with OTP-based login. No password required.
- 2

Post a Delivery Job

Full address details, item type, weight, urgency level (standard / priority / critical), and delivery mode (door-to-door, airport-to-door, etc.).
- 3

Carriers Matched

Verified Travellers or couriers on the same route are matched to your job automatically.
- 4

Pay & Track

Same secure escrow payment system. Business tier includes SMS updates, required photo proof, and street-level tracking.
- 5

Confirm & Complete

Delivery confirmed. Payment released. Full audit trail available for your records.

Priority Partner Programme

FEATURE	STANDARD BUSINESS	PRIORITY PARTNER
Delivery SLA	24-hour support	2-hour response
Account manager	✗	✓ Dedicated
Live GPS tracking	✗	✓ Included
Unlimited pings	✗	✓ Included

Phone escalation	✗	✔ Included

--------------	---	---

Quick Reference Guide

I want to send a parcel

Sign up at boothop.com → Post a request → Wait for a match → Pay when matched. Use the £20 welcome credit on your first booking.

I want to earn as a Traveller

Sign up → Verify your identity (ID + bank details) → Post your travel route → Accept a match → Carry and deliver → Get paid.

How do I track my delivery?

Scan the QR barcode emailed to you, or visit the tracking link. No login required. Updates appear in real time.

When will I be charged?

Your card is authorised when you pay, but only actually charged when both parties confirm delivery is complete.

When does the Traveller get paid?

Within 1–2 business days after both parties confirm delivery. Payment goes directly to their bank account.

How do I raise a dispute?

Go to your BoothHop dashboard → find the match → tap "Raise a Dispute". You have 24 hours after delivery confirmation to do this.

Can I send to Africa?

Yes — Nigeria, Ghana, Kenya and more. There is an extra review step by the BoothHop team, which takes a few hours on business days.

I'm a business — where do I start?

Visit boothop.com/business for an overview. Apply for a business account or Priority Partner status from there.

I need help

Email: info@boothop.com
Website: boothop.com/contact
Response: typically within 24 hours

Is my payment safe?

Yes. BoothHop uses Stripe — the same technology as Amazon and Deliveroo. Your money is held in escrow and never released to anyone until delivery is confirmed by both parties.
